

When you first open the app, you will see four main sections arranged in a clean card layout:

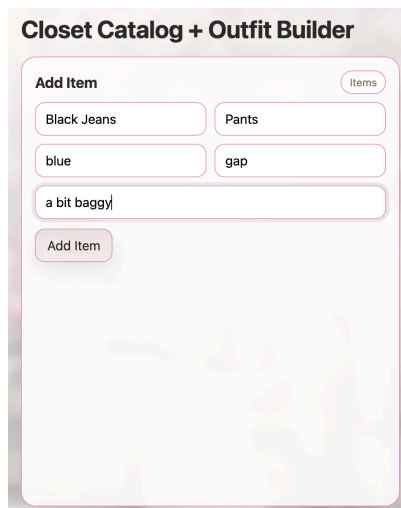

- Add Item
- My Items
- Create Outfit
- My Outfits

1. Adding a New Clothing Item

Adding an item is the very first step to building your outfit catalog.

Steps:

1. Locate the Add Item section at the top of the page.
2. Fill in the following fields:
 - Name (required), ex. “Black Jeans”
 - Type (required), ex. “Pants”, “Top”, “Shoes”
 - Color (optional)
 - Brand (optional)
 - Notes (optional), any thing you want to mention
3. Click Add Item.

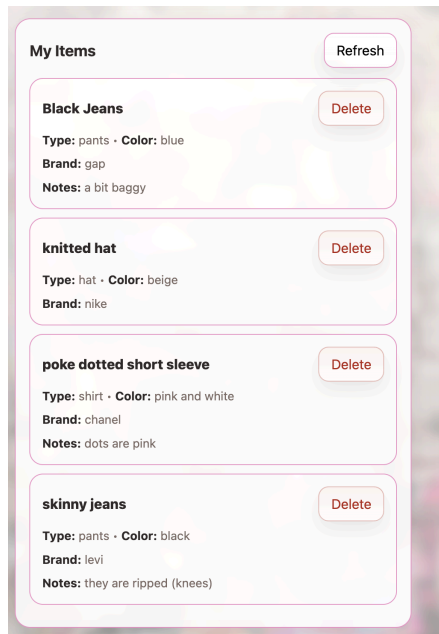

The screenshot shows a mobile app interface titled "Closet Catalog + Outfit Builder". At the top, there's a navigation bar with "Add Item" and "Items" buttons. Below this is a form with several input fields: "Black Jeans" (Name), "Pants" (Type), "blue" (Color), "gap" (Brand), and "a bit baggy" (Notes). At the bottom of the form is an "Add Item" button. The background of the app is a blurred image of a person's legs in jeans.

2. Viewing Your Items

Next to or below the input form is the My Items panel

- Each item is displayed as a card containing:
 - Item name
 - Item type
 - Optional fields
 - A Delete button

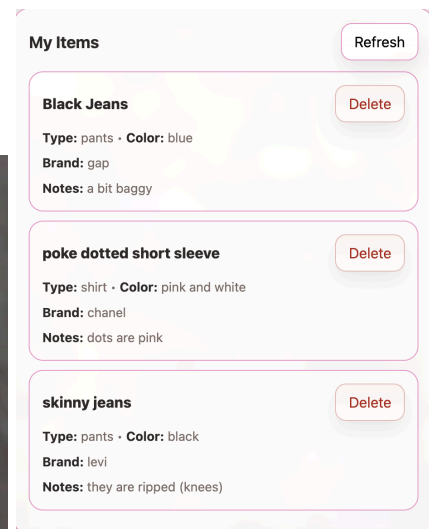

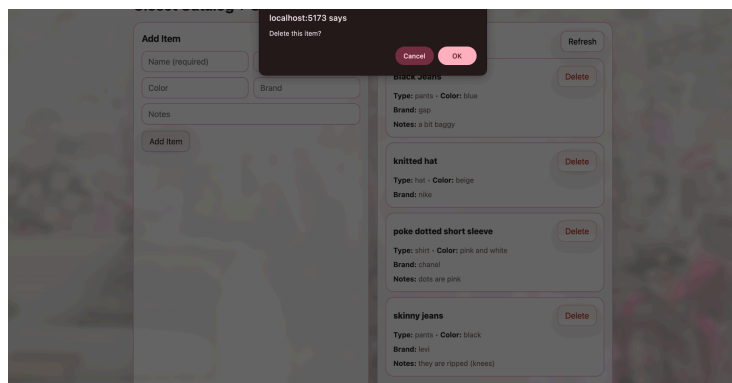

The list updates whenever you add or delete an item or you can press refresh to see the updated list

3.Deleting an Item

If you no longer want an item in your closet:

1. Go to My Items.
2. Find the item you want to remove.
3. Click the Delete button.
4. Confirm the action when asked.

*I removed the knitted hat

Important:

- If the item is part of an outfit, the system automatically removes it from that outfit.

- The item is permanently removed from your closet.

4. Creating an Outfit

This is the core feature of the app which combines items into complete looks.

Steps to Create an Outfit:

1. Scroll to the Create Outfit section.
2. Enter an outfit name
3. Under “Pick items to include,” select the checkboxes for each item you want in the outfit.
4. Click Save Outfit.

Important to remember:

- You must select at least one item.
The system will show a message if you try to save an empty outfit.

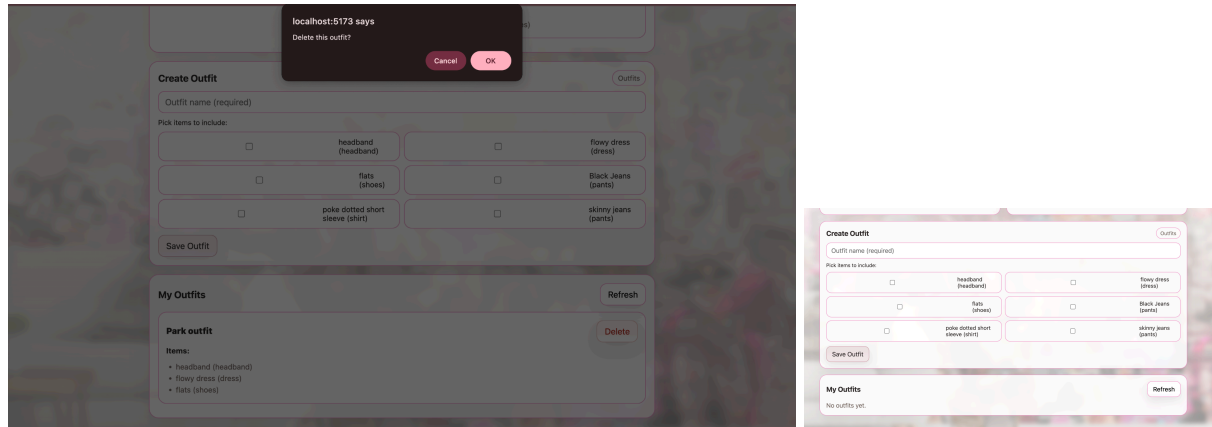

After Saving:

- The outfit appears immediately in the My Outfits section.
- All selected items will be listed under that outfit.

5. Deleting an Outfit

To remove a saved outfit:

1. Go to the My Outfits panel.
2. Click the Delete button beside the outfit.
3. Confirm deletion.

This removes:

- The outfit record
- The item associations inside it

Your clothing items remain unchanged.

6. Final

The app automatically saves everything:

- Added items
- Created outfits
- Item and outfit relationships

So even if you:

- Refresh the page
- Close the browser
- Restart your computer

Your closet and outfits will still be there the next time you open the site.
